Home mortgage helper & live news feed

Lift Pitch

Ever thought about buying your first home but didn't know where to start?

home - **App is here to help you get underway**

> In the fast-paced world of property and mortgages, staying updated with the latest rates and market news is crucial for home-owners. However, gathering all this information from various sources can be time-consuming and overwhelming. Fortunately, there is a solution that makes accessing data and news about property, mortgages, and the economy easier than ever before.
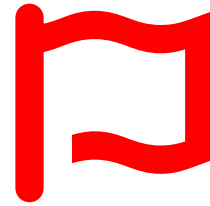

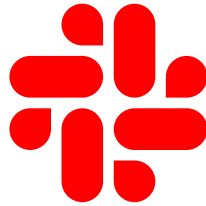

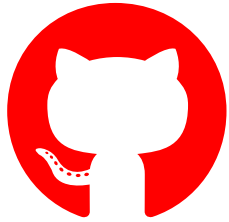

User Story

As a user, I want to quickly access the latest mortgage rates and property market news.

I want to use a mortgage rate calculator to understand financial costs and view homes in the area of my choice whilst taking in latest mortgage and properly related news

So that I can start the process of finding the perfect home and understand whether it's a good time to do so.

How the app works:

The Home application uses APIs that pull in the latest rates, snapshot figures on mortgage rates and interest, and relevant housing market news. By working together, these APIs create a more cohesive snapshot of the property and mortgage landscape for everyone involved.
